Education

University of Texas, Austin - Coding Boot Camp   2022
- Completed 24 week intensive boot camp focused on creating websites and apps from the starting wireframe to deployment.
- Learned agile and scrum methodologies and how they apply to software engineering teams.
- Built a number of projects on my own and became excited and interested in working on frontend applications with React.

Projects

Coffee Rolodex - A Coffee Rolodex that provides all the brewing data using CRUD operations. **Repo Link**
- Built with: React, HTML, CSS, JavaScript, Mongodb, Express & Node.js.

Pin It - Guide to Portland, OR skate spots using REST API. **Repo Link**
- Built with: React, HTML, CSS, Javascript MongoDB, Express & Heroku.

Miso Presents - Concert Promotion Company website. **Repo Link**
- Built with: React, HTML, JavaScript CSS & Sass.

Experience

Software Engineer - Freelance   '21- '23
- I've created many functional websites and applications for local clients. Ranging from restaurant tool software to vacation rental websites.
- Managed full project development from first concept meeting to site deployment.

Flat Track Coffee - Manager   '20 - '22
- Served as the manager of 7 employees at Flat Track Coffee, including onboarding and training.
- Managed wholesale accounts of all paper goods, food suppliers and retail coffee ordering.

TileBar Espresso - Owner & Operator   '15 - '21
- Created a mobile espresso catering business, serving high-quality specialty espresso at events, including:
    - Setting up the business and getting everything up to Arizona's unique legal code.
    - Marketing and growing an initial clientele, serving thousands, across 100+ events.
    - Source products from local coffee roasters and tea makers to build and support local business.
- Created our website, my first step into web development.

Technologies & Skills

- **Familiar with**: React, JavaScript, Node, SQL, NoSQL, MongoDB, MySQL, Express, CSS, HTML, GitHub.
- **Excited to learn more about:** Backend Technologies, Algorithms, Working as part of a big team.
- **Highly regarded by colleagues for:** Team management, Communication Skills, Problem solving.
